

Termination of leases of all rental units must always be made in writing. You are subject to a notice period of termination of one full calendar month. The notice period of termination is calculated from the last day of the calendar month in which you terminate your tenancy. Example: If you wish to terminate your lease to end at the end of August, your notice of termination must be successfully delivered by the last day of July. Please note that it is necessary that all those who signed the lease also terminate it. To check who the necessary persons are, see your lease document. Additionally, do not forget that termination also cancels any possible lease you may have for a parking space.
